1. The Vicko Krstulovic shipyard: Various buildings in the shipyard are still under construction. The shipyard at present is engaged in the construction of water tankers and naval transport motor vessels. About 29 of these craft, with a displacement of from 400 to 500 tons each, are nearing completion.
2. Shipyard at Solin - Sv. Kaja: A new shipyard for the construction of merchant ships is being built near the cement factory at Solin - Sv. Kaja. Both civilian labor and troops are being employed on the job. A break-water of 200 meters is at present under construction, and the depth of water along the sea-front is being increased to 11 meters. The ground along the shore is being leveled and a large number of one-story buildings are being erected. Six of these, containing living quarters for the militarized labor detachments and equipment stores, have been completed. About 600 workers are employed, working in three shifts of eight hours each.
3. Northern Harbor, Split: Construction of the northern harbor is in progress and about 300 meters of the sea-wall have been completed. Only civilian labor is being employed on this enterprise.
